

OUR ELDER'S JOURNEY OF CARE

This artwork represents McLean Care and iAgeHealth's journey and their commitment to closing the gap in health care equity for our Elders.

The large central gathering circle represents the McLean Care, while the smaller circles represent iAgeHealth connected as one service in all states of Australia. With flowing pathways representing virtual health support bridging distances and ensuring all communities have access to culturally safe and holistic care.

The U-shape symbols throughout the artwork represent our Elders, honoring the vital role they hold within their community and their well-being is at the heart of the iAgeHealth mission.

The kangaroo footprints represent the journey forward, and the continuous progress towards better outcomes for our Elders, reflecting on iAgeHealth's commitment to advancing virtual healthcare.

The small blue gathering circles represent the virtual connections that support our Elders within their community.

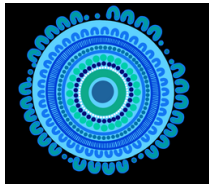

The gum leaves in the artwork represent McLean Care and iAgeHealth's holistic approach for caring for our elders, while also used for healing and ceremonies.

The green smaller circles throughout the artwork represent our Elders who have passed into dreaming while in the support of McLean and iAgeHealth.

The blue lines throughout the artwork represent our Elders connection to their Sea Country, while the various style dots represent our Elders connections to their Country.
